Fluctuations on New York 'Change

MONEY, STOCKS AND BONDS

Largely Due to Bull Manipulations. More Gold Now Reported to Go Out Saturday -The Indianapolis Board of Trade Nearly

Deserted and No Demand for Cereals.

### THE BOND MARKET.

Railroad Issues Again Showing Activity Under New Foreign Demand, At New York, yesterday, money on call

was easy at 3@4 per cent., the last loan being made at 3; closing offered at 3. Prime mercantile paper, 512@7 per cent. Sterling exchange was quiet but firm, with actual business at \$4.85% for sixty-

day bankers' bills and \$4.87% for demand. Total sales of stocks were 385,000 shares, including the following: Atchison, 7,600; Chicago, Burlington & Quincy, 4,300; Chicago Gas. 9.700; Delaware, Lackawana & Western, 5,600; Distilling, 87,500; Manhattan, 17,500; New England, 24,300; Northern Pacific preferred, 4,400; Reading, 64,400; Rock Island, 7,500; St. Paul, 12,900; Sugar,

18,400; Union Pacific, 6,200; Western Union,

5,100. The stock market was moderately active all the way through yesterday, but, while showing considerable strength in the forenoon, reacted sharply later in the day. and, while important losses were confined to the few active speculative specialties, the whole list, with but few exceptions, closed at lower figures. There was a marked bullish feeling carried over from Tuesday night in consequence of the action of the Bank of France withdrawing its practical premium on gold, and higher prices ruled all along the line. It gave way, however, when the hope of cessation of gold exports was done away with by an advance in exchange rates on the part of almost all the leading drawers, one of which expressed the opinion of that an outgo of gold on Saturday was not to be avoided This put a damper on the buying movement of the stocks immediately, and while, naturally, the speculative shares suffered most severely in the decline which followed, only a few escaped the effect of material realizations induced. Railroad stocks were moved over parrow limits from the industrials, and the only important loss sustained was in the Big Four, which lost 1's per cent. on comparatively light dealings. Selling was so general that no rally was made of importance, although covering

fairly active and heavy, at or near the lowest figures. The bond list again showed considerable activity, and a reported demand for Americas issues abroad aided in keeping the market stiff in the face of weakness in stocks. Few special features were seen, and final changes were generally small. Government bonds were dull and steady. State bonds were neglected. Closing quota-

operations in the last hour checked the de-

cline of the list. No improvement in the situation is to be noted, and the close was

LOCAL GRAIN AND PRODUCE. Trade Slow Under Unfavorable Weather

-Prices Still Toward Higher Figures. On the wholesale streets but little was doing yesterday, owing to the blustering winter weather. The morning trains brought in few buyers. The dry-goods and boot and shoe houses are beginning to receive their spring goods, and this gives the clerks something to do to ease off the dullness in trade. There were no important fluctuations, and in most lines higher prices are more probable than declines. The attendance on the Board of Trade

was slim and the bidding slow. Wheat rules easier than last week, while corn and oats are in fair request and prices on light receipts well held. Track bids yesterday ruled as follows: Wheat-No. 2 red, 68c; No. 3 red, 634c; No. 4 red, boc; rejected, 50c; wagon wheat,

Bran, \$11.75 per ton.

Corn-No. 1 white, 39c; No. 2 white, 39c; white mixed, 384c; No. 3 white, 59c for one or two color; No. 4 white, 37c; No. 2 yellow, 28c; No. 3 yellow, 38c; No. 4 yellow, 36 4c; No. 2 mixed, 38c; No. 3 mixed, 38c; ear, yellow, 39c. Oats-No. 2 white, 351/2c; No. 3, 341/2c; No. 2 mixed, SSc; No. 3 mixed, SSc; rejected.

29@300. Hay-Choice timothy, \$12; No. 1, \$11.50; No. 2, \$9.50; prairie, No. 1, \$7.75; No. 2, \$5.50. POULTRY AND OTHER PRODUCE.

Poultry—Hens, 7c 学 th; youngchickens, 8c 学 th; turkeys, 10c 学 th; ducks, 7c 学 th; geese, \$5.40 for choice, Butter-Choice country butter, 20@22c: common, 8@10c.

Eggs-Shippers paying 24c. Cheese-New York full cream, 12@124c ekims, 5@7c # 18. (Jobbing prices.)

WHEAT SUDDENLY WOKE UP

The Leading Cereal Comes to the Front with a Rush, Making a Gain of 3c.

All the Selling of Pardridge and His Determined Bear Colleagues Failed to More Than Check the Advance at Times.

#### TRADING AT CHICAGO.

Pork Recedes Some, Having Probably Reached the Highest Notch.

CHICAGO, Jan. 11 .- A big flurry wheat, with a sudden advance of nearly 30 a bushel, dwarted everything else to-day on 'Change. It was what the bulls have been working for since the winter began. It was difficult to say, while the flurry was on, whether the strength came most from the fright of the shorts, or from the buying by big houses and bullish crop news. The hopeful features of the market for the bulls was the fact that the advance was sustained, even after the aggressive buying ceased. The market started where it closed on the late bulge yesterday, at 79 sc. With no offerings, and Kennett & Schwartz, brokers, trying to buy, the shorts hustled the price up to 794c. Here longs let go some wheat. The crowd took it and put the price to 79%c. Pardridge and others sold heavily to check the advance. The price went back to 79% c, but quickly railied to 80c, with Pardridge still selling. The Liverpool cable was higher early, but when the private cables came, saying the market was advancing on crop damage report. from France, the buying here was redoubled, and the price went to 80%c. The increase of about 1,000,-000 bushels in Bradstreet's available wheat report put the price back to 804c, but New York messages were full of the French crop damage news, and some private cables quoted Liverpool 2d higher. The bull feeling returned a third time, and the price went to 80%c, with a slight reaction to 80 2c. Late messages confirmed the bullish feeling abroad, and about midday the May price touched Slc. with the market acting as strong as at 80c an hour before, Large sales of low-grade cash wheat at 4c over the Monday prices were reported by ele-vator people and this encouraged the bulls. The market got another big lift before the close. The late cables confirmed the great strength at Liverpool and Paris over the terrible weather on the continent. It was evident that several large shorts were buyers. The bull clique houses not only did not try to hold the market back as hereto-fore, but helped the bulge along. The foreign buying continued here and at New York. The Northwest made efforts to get in a lot of short wheat. The market broadened and strengthened, and on the late buying the May price rose quickly from 80% to 81% o as the high point, with the Close at 81 2c.

Corn attracted a fair amount of attention, though the market was not what might be called active at any time. The market closed with % @40 gain. Oats attracted much more interest than on yesterday. The feeling was firm and the close was at 18 @ 12c gain.

There was a reaction in the provision trade from the very strong market of prevery materially, and the edge was off the market at the yards. The so-called bull clique operators were letting the market alone. Armour brokers were doing little. When the market broke a little the stop orders brought out considerable products The impression was quite general that the market has reached the top unless hogs go higher. Provisions closed about 10c over bottom prices for the day. This was a decline from yesterday of 35c in pork, .15c in lard and but .02 to in ribs. Estimated receipts for to-morrow are: Wheat, 200 cars;

Prairie Farmer. In the case of the thoroughly trained horse, the mind of the man becomes, practically, the mind of the horse, as the experiences of every day show. Through skillfully ordered crosses his reserve forces are vastly increased, and by long and adroitly applied training the limit that was supposed to attach to him proves to be far less than correctly represents his capabilities. This innate capacity covers the mental as well as the physical qualities, and neither reach a high position spontaneously, but, on the other hand, through drilling only. The boy who is destined to be nothing more than a la-borer is drilled for several years in school, while the horse is expected to come off the farm, green and untutored as he is, to take his position on crowded streets, among startling sights and sounds, taking the family carriage and the family safely in the face of these without danger of accident. This is expecting more than can be reasonably looked for from the horse that. from colthood, has grown up with the horned cattle, receiving no training that

they have not received. Human nature, in the untutored state. was far more treacherous and vindictive than the average horse of our day; yet bred, as many of them are, from parents of little intelligence, and at the same time of unkindly disposition, it is taking altogether too much risk when they are put in places of trust, forcing them to approach an object calculated to frighten, without having previously taught them the object

was harmless. What may not the young horse easily be taught to submit to without showing fear. when it is considered he may be trained to permit a musket to be fired off his back, to stand the vivid glare and roar of battle. and even with his own teeth to pull the trigger of a loaded sixpounder, showing no quiver of a muscle at either of these sights or sounds. Yet the verdant buyer looks over the country borse, offered for sale in a crowded city. innocently asking, "Is he afraid of anything?" Being assured that he does not scare, the would-be buyer takes courage. when, perhaps, the first fire-cracker that a mischievous boy throws within a rod of him will cause a runaway, because his education as to harmlessness of fire-crackers has been sadly neglected.

Colts, like boys, have a side upon which they can best be approached. This side opens the way by which imperceptibly their confidence can be gained, and control comes next as a natural following.

Will Be Congenial to Grover. St. Paul Pioneer Press

The decidedly unhandsome threat is coming from certain quarters that if Mr. Carlisle obtains a seat in the Cabinet, certain facts about his peculiar habits, which have beretofore been suppressed, will get into print. There has been a good deal said sub rosa in newspaper circles about his doings when the rosy found its way into his head.

Members of the Legislature Desiring THE JOURNAL left at their botels or boarding-houses are requested to leave

# THE INDIANAPOLIS JOURNAL

DAILY.

stantly increasing.

SUNDAY

WEEKLY

Since the Journal reduced in price from 25 to 15 cents a week, it has greatly extended its circulation, reaching 1 large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate the result which was to be expected, namely, that what was first regarded as a luxury has become a necessity, and that the new readers

not only remain, but their list is con-

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. Although the cam aign is ended, the coming session of Congress and subsequent change of administration involve political problems and proceedings likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing

on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constant endeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press ociations and the urnishes careful correspondents, supervision for e department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year. contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
